Joannie,

I wanted to thank you and your team for the amazing job you did with the drive recovery performed this past month.

After all efforts were exhausted internally, we thought we had lost some incredibly valuable data, including very important video footage, which could not have been replicated.

Our IT department knew we had one last hope in Data Analyzers and you did not disappoint. From receipt of the drive, through your quick analysis and initial quote, and concluding with the delivery of the drive to us shortly after, Data Analyzers proved to be the right data recovery specialists to call when we most needed them.

We could not recommend your company enough to anyone with similar data recovery needs!

Regards,
